POLELED

INCREASE YOUR VISIBILITY

POLELED BASIC AND EXTENDED FLAG AND BANNER LIGHTING

MORE VISIBILITY BY MOVEMENT AND LIGHT

Using **flags** and **banners** is THE way to be better visible. The continuous **movement** catches the eye, and the attention of passing audience is naturally drawn to it.

Recently scientific research has proven that **movement in combination with light** creates the **highest visual attention value**. Do you want your flags and banners to also be **visible in the dark**? In a responsible and special way making optimal use of energy and light?

PoleLed provides a system that enables you to illuminate your flags and banners in a unique and very special way. A system that blends in perfectly with the pole and makes your flags and banners strikingly **visible for (potential) clients**, even at night. In addition, national flags may be officially raised 24/7 (flag protocol).

HOW DOES IT WORK

This unique lighting system contains powerful LEDs which are arranged around the pole in a circular unit. Because of this circular setting, it doesn't matter from which angle the wind is coming: the flag or banner is **always fully illuminated**. The powerful CREE LEDs create a clear and uniform light distribution. The PoleLed lighting unit is applicable to almost every type of existing and new poles, both made of wood, aluminum, and polyester, either conical or cylindrical.

The unit is made of aluminum and is delivered including terminal connectors and a power supply. Once the system is installed, **theft is virtually impossible**.

The PoleLed lighting unit is patented and has been developed focusing on **sustainability** and energy efficiency.

The unit is available in two types:
- PoleLed Basic (poles up to 4.5 inch)
- PoleLed Extended (poles up to 5.7 inch)

The PoleLed Extended is fully **customizable**.

SPECIFICATIONS

	POLELED BASIC	POLELED EXTENDED
Wattage	24 Watt	38 Watt
Light output	2300 lumen	3250 lumen
Voltage	24 volts DC	24 volts DC
Lifetime LEDs	+50,000 hours	+50,000 hours
Material	Aluminum	Aluminum
Number of LEDs	12 pcs CREE	10 pcs CREE
Lighting color	5000 Kelvin	5000 Kelvin
Angle	11° and 20°	11° and 20°
Cable length	23 ft	33 ft
Size	9.1 x 7.1 inch	10.2 x 8.3 inch
Warranty	5 years	5 years
Pole	Suitable for poles with a diameter up to 4.5 inch	Suitable for poles with a diameter up to 5.7 inch

LIGHTING SOLUTION
FOR THE FLAG PROTOCOL

FLAGS

The flag is an ancient, proud product that is still used a lot today by companies as part of their business and marketing activities. Especially during the day, these moving advertisements are eye catchers.

BANNER

A banner is a high-sized canvas that's always optimally visible, even in calm weather. This has to do with the way in which the banner is assembled.

LIGHTING

What if these (moving) and prominent advertising poles would also be visible in the evening and literally illuminate your company? You will profit from the best return on your investment, not only during the day, but also during the evening and night.

POLELED BASIC AND EXTENDED

A lighting system with which you can illuminate your flags and banners in a unique and very special way. The PoleLed lighting unit blends in perfectly with your existing or new pole.

MORE INFORMATION

If you would like to learn more about the poles, the unit, or the assembly of it, please contact us. We'd be happy to provide you with more information.
